
Mightex Annual Research Excellence Prize

Mightex Annual Research Excellence Prize is awarded annually to full-time undergraduate and graduate students as well as post-doctoral researchers who are currently studying in educational institutions around the world.

The winners must be engaged in scientific research and/or engineering development projects using products/equipment developed and manufactured by Mightex. He/she must submit a novel video or photo displaying the unique capabilities of Mightex's products in their research, along with a brief description.

About the Mightex Student Research Award

If deemed eligible by Mightex's technical board, all entries accepted for publication on Mightex's website will be automatically awarded a \$500 cash award and entered into the Mightex Annual Research Excellence Prize.

Three top winners will be awarded the following:

- A one-time cash award
 1. Top prize: \$3000 USD
 2. 2nd prize: \$2000 USD
 3. 3rd prize: \$1000 USD
- His/Her research and personal bio/photo will be published on Mightex's website.

Eligibility

The applicant must be:

- A full-time undergraduate or post-graduate student or post doctoral researcher;
- Studying in an educational institution anywhere in the world;

The video, photo, white paper or application note must demonstrate unique capabilities and will be judged by Mightex to whether the award will be awarded.

Deadlines

1. Accepting Applications: anytime in the year
2. Stop Accepting Applications: May 30th for the prize associated with the previous calendar year
3. Award Announcement: June 30th

How to Apply?

1. All applicants must complete this application form. The form must be signed by the applicant (i.e. the student), and co-signed by the student's advisor or an authorized official of the educational organization;
2. The following items must be submitted along with the application form:
 - a. The video or photo demonstrating the unique capabilities of Mightex's product in your research.
 - b. A description of how Mightex's products are being used in your research and what is occurring in the video or photo.
